

REMARKS

Claims 45-65 are allowed in the subject application. By this amendment, applicants have amended Claims 45 and 57 for purposes of clarity. In regard to deletion of the phrase "positioned on the electrode part and" in Claim 45, applicants note that Claim 45 already recites "the reagent layer being provided on the electrode part..." Applicants maintain that the amendments to the claims do not raise an issue of new matter. Support for the amendments can be found at least in the previous version of the claims.

A replacement Abstract has been provided in single paragraph format. Applications maintain that the replacement Abstract does not raise an issue of new matter.

Entry of the amendment is respectfully requested.
